after that->despues de ese..
boring->aburrido
depend on->depender de...
encourage->animar
despite->a pesar de
in spite of->a pesar de

I liked the tex a lot because car racing is a exciting sport which keeps you in tension. It isn` t a boring sport, in fac I think it is one of my favourites sports together with tennis and football. In my opinion I would encourage people who don` t like car racing to watch a world championship on Tv and enjoy the feeling of emotion and tension that I feel in every race.

On the one hand, car racing is an exciting sport, full of emotion, which keeps you in tension. on the other hand, this sport is really dangerous for the pilots because they put at risk their lives driving at great speed in every race.
