I'm going to talk about my summer vacation, were generally very good although there was no trip like other years. On the one hand, but is not gone on a trip I spent more time with my friends and my boyfriend, we have a lot to the beach, I've also worked a few days with my mother occasionally went to the gym and when I was in August all day at the fair.

On the Other hand, when I finish the show I get the worst of the summer, because I had to go back to school to pass exams these days.

In conclusion the holidays were very good, I had time to do many things, I hope the next holiday will be better.
